

# Step up to Great

## Mental Health

Public consultation about proposals to invest in and improve adult mental health services for people in Leicester, Leicestershire and Rutland when their need is urgent or they need planned care and treatment.

Leicestershire Partnership NHS Trust

### We want to:

- Join up and make it easier for people to access mental health care.
- Reduce long waits for services.
- Provide high quality care locally close to home, leaving inpatient facilities to care for the most unwell people.
- Help people to get the right care, first time, providing a seamless experience with no unnecessary delays or need to continually repeat their story.
